ENDORSEMENTS

- Jennifer is not only an excellent teacher of students, she is also an incredible teacher of adults. She is extremely knowledgeable about the ways children learn and the best strategies to teach them. Whenever I have a great observation in reading I contribute it to time spent learning from Jennifer.

-Amy M., 2nd grade teacher, TN

-Jennifer creates an atmosphere of 'I can do this' in the middle school classroom with teachers who have never used guided reading. Her support and patience fosters success with teachers and students.

-Lori B., middle school teacher, TN

-As a new teacher, I admired Jennifer's love and passion for teaching. Jennifer provided me with the groundwork needed to develop good lesson plans plus strategies for effective classroom management, while advising me on how to best spend instructional time each day to ensure student mastery. Jennifer is an accomplished teacher, learning instructor, and principal.

-Rebecca R., high school teacher, GA
